

# CLOUD MANAGEMENT PLATFORM

Power drive your organisation with  
end-to-end cloud services

# Embracing and initialising transformation is pivotal to shaping sustainable and insights-driven organisations

**61%**

of organisations plan to focus on cloud migration<sup>1</sup>, with APAC economies rising by 9.8% cloud readiness from 2018 to 2020<sup>2</sup>

**73%**

of organisations plan to optimise existing use of cloud(cost savings), making it the top initiative for the fourth year in a row<sup>1</sup>

**83%**

of enterprises indicate that security is a challenge<sup>1</sup> with a marginal increase of 3.3% cloud security readiness for APAC economies from 2018 to 2020<sup>2</sup>

<sup>1</sup> Flexera 2020 State of the Cloud Report

<sup>2</sup> Asia Cloud Computing Association - Cloud Readiness Index 2020

**AGIL™ Cloud Management Platform** is our unique solutioning approach in unifying cloud acceleration with automation, whilst maintaining integrated visibility and control through managed services in hybrid multi-clouds for regulated industries and commercial enterprises to achieve agility and speed-to-market.

Sense, process and act in complex operations with in-built sensemaking capabilities in the cloud management platform

Promote internal data cohesiveness among clouds and bridging silo applications

Overspending due to inefficient cloud deployment and costs estimation.

**Real-time visibility: Achieve cost optimisation across multiple clouds with predictable timelines.**

Inadequate real-time awareness of risk and security posture, governance and policies.

**Easy configuration and monitoring of security risk governance policies, Configuration Drifts and customisable risk scoring for operational systems.**

Enterprise teams may lack experience in migrating complex workloads, services, and applications to the cloud.

**Automates the Discovery and Assessment solution for cloud migration with comprehensive view of all services, applications and infrastructure dependencies with cloud cost transparency.**

Enterprises are concerned with data privacy management in edge operations and cloud vendor lock-in.

**Easy orchestration of containerised workloads across clouds and Multi-access Edge Computing (MEC).**

# EMBARK ON YOUR CLOUD TRANSFORMATION JOURNEY WITH US

1

## Discovery and Assessment

Assist your organisation in understanding the **needs for Digital Transformation.**

- Use our **agentless & automated** discovery framework
- Be equipped with a **defined roadmap** towards modernisation
- Potentially **move to micro-services** with our **trusted partners**

3

## Achieve Security and Regulatory Compliance

Enjoy the latest security & regulatory compliance to **make your data safe and secure**

2

## Gain Cost Optimisation

with **Predictable Timelines and Workload Budgeting** for your organisation

4

## Continuous Access to Latest Security Policies

- Enjoy hassle-free policy and configuration drifts **with in-built compliance policies**
- **Customisable** Risk Scoring for operational systems

5

## Gain Real-time Visibility

- **Simplified** interface and intuitive usage
- **Single Dashboard** to monitor workloads in **multiple clouds**

6

## Achieve Digital Resilience and Scalability

**Unlock flexibility across multiple clouds** with:

- Resource orchestration (compute and storage resources)
- Container orchestration, **even at the edge**

# Harness the Intelligent Edge

Empowering enterprises with the ability to shift containerised workloads across clouds and multi-access edge computing (MEC) to avoid vendor lock-in

Collect and process information at the edge, leveraging cloud computing and data fusion to derive new machine learning capabilities

Manoeuvre data securely between on premise, public clouds and edge devices

Optimising bandwidth cost and latency to enable time-critical decisions at the edge

## “93% of enterprises have a multi-cloud strategy<sup>1</sup>”

Achieve agility in decision-making with scalability, security, and governance while optimising the use of cloud assets with **AGIL Cloud Management Platform**
